PROFILE

Software Engineer (Business Solutions) and Marketing Specialist with experience in business process automation, AI-driven solutions, software development, digital marketing, and operations management. Skilled in developing web and mobile applications, workflow automation, Power Platform solutions, and business intelligence reporting. Experienced in IT administration, collections management, and operational optimization. Passionate about leveraging technology to improve efficiency, streamline processes, and drive business growth.

WORK EXPERIENCE

Luxe Signature Holiday Homes / Real Estate (Dubai, UAE)

Software Engineer (Business Solutions) / Marketing Specialist

- Develop and implement business solutions, web applications, and automation tools to improve operational efficiency and productivity.
- Analyze business processes and identify opportunities for digital transformation, workflow optimization, and AI-driven automation.
- Build and maintain automated reporting systems, internal platforms, and integrated business applications.
- Collaborate with stakeholders to translate business requirements into scalable technical solutions.
- Integrate systems, databases, and third-party platforms to improve data accessibility and operational performance.
- Manage digital marketing initiatives, content creation, and online brand presence across multiple platforms.
- Support real estate marketing operations in Dubai through property listing management, website optimization, and lead generation strategies.
- Leverage AI technologies to automate repetitive tasks, generate business insights, and support data-driven decision-making.
- Monitor performance metrics and provide actionable recommendations to improve business and marketing outcomes.
- Provide ongoing system maintenance, user support, documentation, and continuous process improvement initiatives.

Suliter International Building Materials (Dubai – UAE)

Sales Admin & Collections | Operations Department

- Collaborate with buyers to negotiate payment schedules, extensions, or settlements while maintaining positive client relationships.
- Process and manage purchase orders, ensuring timely procurement of goods and materials to meet trading operations' requirements.
- Coordinate with suppliers to negotiate pricing, terms, and delivery schedules, maintaining cost efficiency and product quality.
- Monitor inventory levels and prepare purchase requisitions to prevent stock shortages or overstocking.
- Maintain accurate records of sales, purchases, supplier contracts, and buyer account transactions for reporting and auditing purposes.
- Support the sales team by preparing quotations, sales reports, and client documentation to facilitate smooth trading operations.
- Track and manage order fulfillment to ensure on-time delivery and maintain buyer satisfaction.
- Follow up with buyers on outstanding invoices and overdue payments, maintaining regular communication via phone, email, and written correspondence.
- Generate reports for management on sales performance, procurement activities, and collection status of buyer accounts.
- Provide administrative and operational support to management, ensuring efficient coordination between sales, procurement, and collections functions.

GC&C Group of Companies – Philippines

IT Admin Support / Web Developer

- Developed and deployed a cross-platform Parking Management mobile app using Flutter, featuring real-time space tracking and a user-friendly booking interface.
- Designed responsive UI components and integrated RESTful APIs for seamless data exchange and performance.
- Implemented state management using Provider and optimized app performance for Android and iOS platforms.
- Conducted app testing, debugging, and version control using Git
- Provided technical support and guidance to staff for IT-related issues, ensuring smooth operations across departments.
- Performed system updates, routine maintenance, and monitored network infrastructure for reliability and security.
- Managed user accounts, access controls, and implemented cybersecurity protocols to safeguard company data.
- Installed, configured, and maintained hardware/software systems, coordinating with vendors for procurement and repairs.
- Maintained IT documentation, equipment inventory, and ensured compliance with data backup and recovery standards.

Lexmark Corporation – Philippines

DX Solutions Developer (Power Apps Developer, Power Automate)

- Developed custom web applications using Microsoft PowerApps to streamline internal workflows.
- Automated business processes with Microsoft Power Automate, improving operational efficiency.
- Created dynamic and insightful data visualizations using Microsoft Power BI for performance tracking and reporting.
- Collaborated with cross functional teams to deliver scalable digital solutions aligned with business needs.

Zetta Solutions Inc. – Philippines

Mobile Application Support / Tech Support

- Provided remote support for deployed mobile application projects related to Modern Jeepneys, resolving bugs and technical issues efficiently.
- Designed user interfaces for E-Wallet applications tailored to modern jeepney operations using Flutter.
- Collaborated with cross functional teams to ensure smooth deployment and maintenance of mobile solutions

Lear Corporation – Philippines

Internal Business Data Analyst (Excel (VBA), Power Business Integration) –

INTERN

- Streamlined internal processes by developing VBA scripts and Excel macros, reducing manual work and improving data accuracy.
- Managed and analyzed operational data using Microsoft Excel, delivering actionable insights for weekly team meetings.
- Created dynamic dashboards and visual reports in Power BI to support data-driven decision-making across departments.
- Collaborated with cross-functional teams to identify inefficiencies and implement automation solutions.
- Strengthened presentation skills by preparing and delivering findings using Microsoft BI

YLifestyle Design and Management – Philippines

Virtual Assistant – IT Administration / SEO / Website Developer / Automation / Marketing / Social Media Management

- Manage tenant payments by reviewing payment histories, tracking due balances, and following up with tenants regarding outstanding accounts.
- Perform accurate data entry and management in AppFolio, ensuring all property, tenant, and payment details are correctly recorded for real estate bookkeeping.
- Utilize Microsoft Excel for data consolidation and reporting, applying advanced formulas, data validation, analytics, and pivot tables to generate accurate financial and client reports.
- Prepare and deliver regular reports, updates, and analyses to the CEO, ensuring that all requested information and documentation are provided promptly and accurately.
- Coordinate with clients and internal teams to schedule meetings, maintain consistent communication, and ensure timely task completion and follow-ups.
- Regularly review customer accounts to ensure compliance with credit terms and payment conditions.
- Contact customers via phone, email, and mail to follow up on overdue accounts and secure timely payments.
- Collaborate with customers to negotiate payment plans, extensions, or settlements as necessary, maintaining professionalism and fostering positive relationships.
- Provide comprehensive administrative and operational support to the CEO, ensuring that all business needs, reports, and requests are handled efficiently.
